LETTER OF APPRECIATION

Date: 25/09/2026

TO WHOMSOEVER IT MAY CONCERN

We are pleased to express our sincere appreciation to **Mr. Uddhavchandra Chandramoli** for his valuable contribution to Lasya Enterprises through the independent development and implementation of an AI-powered business solution during his engagement with our organization from **January 2026 to April 2026**.

Uddhavchandra took the initiative to understand our business requirements and independently conceptualized, designed, and developed an AI-driven system tailored to address our operational needs. What particularly distinguished his contribution was his ability to take the project from an initial idea to a fully functional system that could be incorporated into our actual business operations.

He demonstrated considerable ownership throughout the development lifecycle, including requirement analysis, solution architecture, development, testing, refinement, and implementation. Rather than limiting his involvement to individual development tasks, he took responsibility for delivering a complete and practical solution.

The system developed by him has been adopted for use within our organization and has helped improve workflow efficiency, minimize repetitive manual tasks, and reduce the time involved in relevant business operations.

We particularly appreciate his independent working capabilities, innovative thinking, technical understanding, and ability to connect artificial intelligence with real-world business applications. His work reflects the importance of developing technology solutions that go beyond theoretical implementation and deliver practical organizational value.

His contribution has been appreciated by our organization, and we are pleased to acknowledge his efforts through this letter.

We wish Uddhavchandra continued success in his future endeavours, particularly in the fields of Artificial Intelligence, Machine Learning, and technology-driven innovation.

For Lasya Enterprises
